1	Automation /WorkFlow							
2	Automation and Workflow Aim To automate budget calculations and simplify monthly expense tracking using Google Sheets. Workflow 1. Enter student income details. 2. Enter monthly expenses. 3. Categorize income and expenses. 4. Calculate total income and expenses using formulas. 5. Calculate the remaining balance automatically. 6. Display the budget summary and savings scenarios. Automation Google Sheets formulas automatically update totals and the remaining balance when input values change. Result The budget tracking workflow was documented successfully.
